MESSAGE

TO PARENTS

Your decision to provide your child with a quality musical instrument is an investment in your child's future. In making it possible for your child to play a musical instrument, you are providing the opportunity for self-expression, creativity, and achievement. Numerous studies indicate that parental attitude, support, and involvement are important factors in a child's ability to successfully learn to play and enjoy music.

SOME SOUND REASONS TO CHOOSE THE MUSIC STORE

Professional Consultation.

Our store is staffed by music education professionals who regularly consult with band directors and students to help your child get the most out of his or her instrument.

Family Owned and Operated.

Three generations of the York family, Paris, Larry and Adam assure you the personal touch you should expect when making an instrument selection for your child. Along with them are six retired band directors and six professional musicians combining their years of experience in school band programs & a wealth of knowledge for your families musical needs.

Commitment.

Our company-wide commitment to the quality of school music programs means your family will receive our best service and only top quality instruments that are part supported.

Partnership.

Your child's success depends on a strong working relationship between parents, school and The Music Store. We are accessible and work closely with all interested parties to assist you and your child.

Beware!

With world markets being as they are today, there are many inferior made band instruments with unfamiliar brand names that can be purchased at non-music dealer stores. In our opinion, these instruments are not suitable for beginners and should have your band director's approval before buying.
